Without Enrollment

Requesting club access is very easy. Just remember that the County Administrator will have to approve you as a Club leader before you have access to the club information.

1) On the Primary Account dashboard you will find a section called 'Clubs' under the 'Account Household'. Select the blue button saying '+Request Club Leader Access.'
2) A Box will open asking for 'Local unit and club'. Choose the correct unit and club and click the blue button 'Submit for Review'.

A County Administrator will need to approve the request before access to club information can be obtained.
